

# Logo Tape

Logo Tape is specially designed for recovering logos and emblems from all types of vehicles. It is also ideal for positioning parts before final fixing or for fixing decorative and promotional items.

## Features & Benefits

- Self cutting adhesive layer - Transfer of the adhesive layer without messy stringing
- High tack - High immediate adhesion
- Large dimensions - Ideal for large emblems
- Time -and cost-efficient - Allows reclaiming the badges and decals

P/N	Product	S/C	Packaging
86687	Logo Tape	KLT2	10 sheets (10 cm x 20 cm)

## Application

Logo Tape allows you to bond lightweight logos and complex shapes on smooth and hard surfaces.

For Automotive and Marine:

- Decorative trims, badges, logos and decals

For building maintenance:

- Attaching lightweight signs, nameplates and plaques
- Mounting prints and photographs

## Instructions

1. Use KENT Soft Surface Cleaner to clean the area where the badge is to be applied on.
2. Peel the backing strip off to expose the adhesive layer.
3. Place the badge onto the adhesive layer. Apply pressure evenly over the badge.
4. Lift the badge off the paper taking the adhesive with it.
5. Apply the badge to the desired area. Ensure that the badge is in the correct position. The more pressure that is applied during application of the tape, the better the bond.

Hint: When removing logos from a vehicle, make sure the original foam backing stays intact for better adhesion. Apply KENT Masking Tape on top of decals and on the vehicle for an easier application.

## Technical Information

<b>Carrier:</b>	Silicone release liner
<b>Adhesive layer:</b>	Acrylic
<b>Colour:</b>	Clear
<b>Length:</b>	20 cm
<b>Width:</b>	10 cm
<b>Thickness:</b>	Adhesive layer 0.04 mm (+/- 0.05 mm)
<b>Shelf life:</b>	12 months
<b>Custom tariff code:</b>	39191012
<b>VOC:</b>	0 g/l

---

<b>Adhesive strength:</b>	8.75 N/100 mm (on steel)
<b>Holding power:</b>	0.1 mm/30 minutes
<b>Application temperature:</b>	-10 to 35° C
<b>Service temperature:</b>	-40 to 170° C
